Dear Parents

The Department of Education and Skills has approved the appointment of Conack Construction Ltd to construct a new school building here in Clondrohid.

Construction of the school is scheduled to commence on Monday February 19th next. The schedule of works indicates a completion date for the project in June 2019.

During the construction phase, parking spaces in the school car park will be limited. Alternative parking during the school day is available in the nearby church car park and in the area near Clann Aire.

Mindful that the construction phase will generate significant extra heavy traffic you are requested to note the following:

- Pupils walking to school from the church car park or from the Clann Aire parking area must be accompanied by an adult. The same applies to pupils at the end of the school day.*
- School staff will park their cars along the eastern side of the church car park, in the area nearest to the post office.*
- The road area directly in front of the school can only be used for a quick drop off or collection. You should not park along this area for any longer period.*
- The primary entrance for all construction traffic will be through the school car park. Please do not park in front of this entrance at any time.*
- Discuss with your child the importance of road safety guidelines, taking additional measures as appropriate.*

For the duration of the construction period, the Board of Management is making the playground areas of the current school available for parking purposes to people who wish to access Community Hall facilities, following school closure each day.

Your fullest co-operation and support is requested at this exciting time for our entire school community. Delivery of this major project will ensure state of the art education facilities for our current school community and indeed for generations yet to come.

Yours Sincerely

Con Lehane, Principal
